

## Prem Sodhi

Fleet Manager  
Continental Carriers LLC

*"Everyone likes (MaTrack) devices. They are easy to use."*—Prem Sodhi

Prem Sodhi is the fleet manager for Continental Carriers LLC, a medium sized trucking company in Fresno, California.

## What are the short and long term benefits Prem sees in using MaTrackinc products and services?

### • LESS TIME ON PAPER WORK

MaTrack devices facilitate report filing with ease in a timely manner. Information that would have taken long tedious hours to calculate manually is instantaneously provided through the MaTrack App. That means precious time saved for Prem..

*"Every quarterly, when I have to do my state report, I can quickly access the information from my (MaTrack) app. (For example) How many miles I went in each state, I can quickly access (it) and don't have to calculate it myself."*— Prem Sodhi

### • USER FRIENDLY

The mandate to change from paper logs to electronic logs left many drivers wondering if things would be initially more complicated. Also, drivers worried about having to learn how to use new devices. With MaTrack, the change was smooth and easy.

*"I was coming from paper log to ELD and now I like it. Everyone likes the (MaTrack) devices. They are easy to use"*— Prem Sodhi

### • THE RIPPLE EFFECT

Helping spread the joy and ease of using MaTrack products to others.

Prem was so satisfied with MaTracks products that he showed the devices to his friends. Result? Not just one, but 10 of his friends are also now benefitting from MaTrack products!

*"I was looking for an ELD device and I called (MaTrack) to find out more and that's how I started. I got the device, and my friends liked them so I ordered 10 more for them. Everyone likes the devices, which is why I ordered 10 more! I am more happy with it."*— Prem Sodhi

### • ELD AND HOS COMPLIANCE

MaTrack devices easily track when drivers are on or off duty and provide an instantaneous view into driver's total hours to make sure that there are no violations in exceeded hours of service.

*"When the law was changed, where you had to have an ELD in your truck when traveling to different states, I was looking for an ELD device. I called (MaTrack) to find out more and that's how I started. I like that the devices have options to change "off duty" "on duty" etc. (to track the HOS)."*— Prem Sodhi

### • CUSTOMER SATISFACTION

MaTrack makes sure customers are satisfied and get the best service and products available in the market.

*"My experience is good. That's my experience with Matrack.. I will stay with you guys."*— Prem Sodhi
